"Thank you so much for providing me with so much information and knowledge on how to use this as an effective learning tool."

Jazmine Clark
Edith Cavell Primary School

What is Learning Village?

Learning Village is a research-informed, image-based language, literacy and assessment programme for EAL and low-literacy learners aged 6–16. Its structured pathways support learners from any language background and at any literacy level to develop survival language, phonics, literacy and curriculum access.

Who is the course for?

- Existing members seeking to strengthen implementation and learner outcomes
- EAL and inclusion leaders
- Teachers and teaching assistants
- School and curriculum leaders
- Schools considering Learning Village for multilingual and low-literacy learners

What does the course cover?

- Assessing learners to identify starting points, strengths and next steps
- AI-enhanced writing assessment and feedback
- Creating adaptable, time-saving resources using AI tools
- Using Basic View to manage learners effectively
- Selecting pathways for survival language, phonics, literacy and curriculum access
- Supporting independent learning, targeted teaching and classroom differentiation
- Planning learning, reviewing results and evidencing progress

Not yet a member? Receive a complimentary Learning Village trial to explore during the course.
